PROFESSIONAL SUMMARY

QA Engineer with 2+ years of experience in manual testing of cloud-based POS systems, Web Application, kiosk, table ordering, and payment solutions. Proficient in functional, Regression, Integration, System, UI, Smoke, UAT, API and Deployment Testing. Experienced in validating end-to-end business Workflows, payment processing, cloud synchronization, inventory management, barcode scanning, dynamic QR code verification, and multi-printer configuration. Skilled in defect life cycle management using Jira, test case design, and Agile/Scrum methodologies. Strong collaborator with experience supporting production releases, deployment verification and delivering high-quality software across multiple projects.

TECHNICAL SKILLS

Testing Types: Functional, Regression, Integration, Exploratory, Mobile, Cross-browser, UAT, Performance, Accessibility, Black-box & White-box Testing, Test Case Design & Test Planning, Defect Life Cycle Management, UAT, SDLC, STLC

Tools & Methodologies: Jira, Bug Tracking, Postman, Agile/Scrum, Defect management, Quality process, Pre-Release Test Scheduling, Test Case Design, Documentation

Domain: POS System, Kiosk System, Cloud Application, Payment System, Table Ordering

Programming knowledge: Java, Web driver, Web Element, XPath, Object-oriented programming (OOP)

TOOLS

Selenium, Appium, Postman (Basic), Jira

EDUCATION

Berhampur University, Science College, Hinjilicut

BSc, Electronics. 2020 – 2023 |

CGPA: 8.45/10

KEY ACHIEVEMENTS

- Received the Engineering Excellence Award - QA for outstanding contributions to POS testing and QA processes.
- Reported, tracked, and verified 1,000+ defects using Jira across multiple releases.
- Achieved 100% test coverage for assigned business requirements across multiple releases.
- Designed and executed 600+ test cases for functional, regression, integration and UAT testing.
- Reduced late-stage defect fixes by 30% through early defect identification and comprehensive testing.
- Successfully supported multiple production releases by validating critical features, hot fixes and integration.

SOFT SKILLS

- Agile & Scrum Collaboration
- Root Cause Analysis
- Attention To Detail
- Cross-functional Communication
- Problem-Solving
- Ownership & Accountability
- Time Management
- Quality-Focused Mindset

EXPERIENCE

ONEHUBPOS

Oct 2024 – July 2026

QA Engineer

- Performed Functional, Regression, Integration, System, Smoke, UAT testing for POS Cloud, Kiosk, Table ordering and Payment Applications.
- Executed end-to-end testing scenarios including order placement, refunds, discounts, payment processing, report verification, and cloud synchronization.
- Validate Application Workflows across multiple platforms to ensure system stability, usability, and business requirement compliance.
- Identified, documented, and tracked defects using Jira and coordinated with developers for issue resolution and retesting.
- Prepared and executed detailed test cases, test scenarios and bug reports based on functional and business requirements.
- Participated in Agile/Scrum activities including sprint planning, daily stand-ups, requirement discussions, and release validation.
- Conducted user acceptance testing (UAT) and production verification to ensure smooth deployment and functionality.
- Worked closely with QA and development teams to improve Application quality and enhance overall testing coverage.

Robowaves

May 2024 – Aug 2024

QA Intern

- Delivered end-to-end QA across healthcare, e-commerce, mobile, and logistics platforms.
- Performed Manual and Automation Testing using **Selenium Web Driver**.
- Executed test cases, logged defects, and verified bug fixes.
- Worked in an Agile environment following **STLC** practices.
- Contributed to software testing across multiple projects.

KEY PROJECTS

Retail POS & Cloud Platform (generic & Sparrow Pay)

- Tested Retail POS and Cloud Application by validating billing, inventory, CRM, Auto Day End, barcode (Case UPC & Item UPC), discounts, promotional pricing, Mix & match, Lotto and Scratchers.
- Verified Dejavoo payment integration, including EBT and EBT cash, refunds, receipt printing and end-to-end payment Workflows.
- Performed Functional, Regression, Integration, UAT, API and Deployment testing while managing defects using Jira and supporting production releases.

US Restaurant POS, Kiosk, Table Ordering & Cloud Platform (Generic, Sparrow Pay & Loomis)

- Tested POS, Kiosk, Table Ordering, KDS and eShop by validating order management, modifiers, combo variations, gift card, KOT generation, Receipt printing, reporting and cloud synchronization.
- Verified PAX payment integration, including multiple payment type, refunds, settlements and multi-terminal order synchronization.
- Performed Functional, regression, integration, UAT, API and Deployment testing while supporting production releases and defect management using JIRA.

India Restaurant POS, MPOS & Cloud Platform (Generic)

- Validated India Restaurant POS workflow, including PhonePe UPI, dynamic QR payments, inventory, CRM, modifier, combo, KOT generation and Receipt Printing.
- Tested Printer SDK, Bluetooth and network printers, payment processing, inventory synchronization and cloud integration.
- Executed functional, Regression, Integration, UAT, API and Deployment testing in an Agile/Scrum environment.
